EASY TO INSTALL
STREAMLINE
ELEGANT DESIGN

PRESS the button
BEFORE opening the door

EASY TOUCH
EASY HOLD
EASY RELEASE

NEW
2014
PATENTED

STEP 1 At desired height, fasten jamb bracket to door frame with open side 1/4" from door with 4 long screws as shown. (See Fig. A) Be sure open side of bracket faces door.

STEP 2 Using short connecting pin, connect closer rod to jamb bracket. (See Fig. B)

STEP 3 Attach door bracket to closer tube FRONT hole with long connecting pin. (See Fig. C) With door tightly closed, hold closer and door bracket against door in level position, mark and drill two 3/32" pilot holes. CAUTION: Do not drill through door. Fasten door bracket to door as shown with 2 short screws. (See Fig. C) Closer is now ready to operate (See Fig. D). The closing speed may be regulated by turning adjusting screw. (See label on tube)

FIG. C

Make your **WISE** choice

HOLD AND RELEASE THE CLOSER

HOLD-OPEN: Press the button to activate the "HOLD" function and Pull the door to the position you desire and Release the door
RELEASE: Bump the door outward slightly
